

Interactive Web Developer

Position: Interactive Web Developer
(PHP,MySQL,XHTML,CSS,JavaScript,Flash,Actionscript)

Seeking a talented, dedicated and experienced web developer/designer to join our interactive web development team.

We are an Atlanta based interactive web marketing and development firm who design, deploy and maintain high-end web marketing promotions for top brands world-wide. Many projects have rigorous deadlines which can not be missed, high expectations of quality, and require flawless execution of promotion deployment and maintenance.

Our workload is growing beyond our in-house capabilities and we are seeking a web designer/developer to expand our development team.

Required Technical Skills (Candidates who don't meet these requirements need not apply):

- XHTML - 4 Years Experience
- CSS - 4 Years Experience
- Photoshop - 1 Year Experience
- Flash - 2 Years Experience
- Actionscript - 2 Years Experience
- PHP - 4 Years Experience
- JavaScript - 4 Years Experience
- MySQL - 4 Years Experience
- Git - 1 Years Experience
- CodeIgniter - 1 Years Experience

Desired Technical Skills (These skill sets are not required, but experience in them is a plus):

- Ruby/Ruby on Rails
- PostgreSQL
- Apache
- Unix/Linux Administration
- XML

Required Personal Skills (These are mandatory as they are the core of how our development team operates):

- Self-motivated
- Reliable
- Excellent Verbal and Written Communication
- Organized
- Willingness to Learn and Operate by Company Developed Standards
- Ability to Deliver in a Crunch

This is a full-time in-house position, telecommuting or freelancing is not an option.

Principals only, resumes from recruiters will not be considered for this position.

Send resumes, portfolio and availability for phone interviews to the reply to address listed.

Compensation: Salary based on experience and skill set.
